Dear Professor Kamal,

Thank you for sending me the [extended abstract of your lecture on the Nobel Prize in Physiology or Medicine](#). It provided an excellent overview of the principles behind the prize and of the work of May-Britt and Edvard Moser. I was particularly happy that you gave this lecture at the Jinnah University of Women and I hope that May-Britt Moser's story will serve as an inspiration for its students and aspiring scientists. Please convey my regards to these students when you meet them again. I wish them all the best in their future careers and I thank you for inspiring them with this lecture.

Kind regards,

Göran K Hansson, MD, PhD, MDhc  
Professor at Karolinska Institutet  
Member of the Royal Swedish Academy of Sciences  
Member of Academia Europaea

---

Secretary General of the Royal Swedish Academy of Sciences (2015-2022)  
Vice Chair of the Board of Directors of the Nobel Foundation (2010-2022)  
Member of the Nobel Committee for Physiology and Medicine at Karolinska Institutet (17 years)
